

AutoCAD Level 2

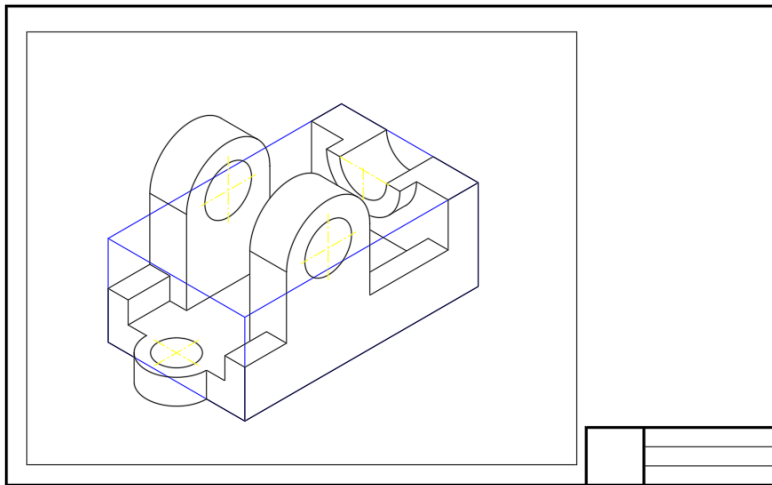

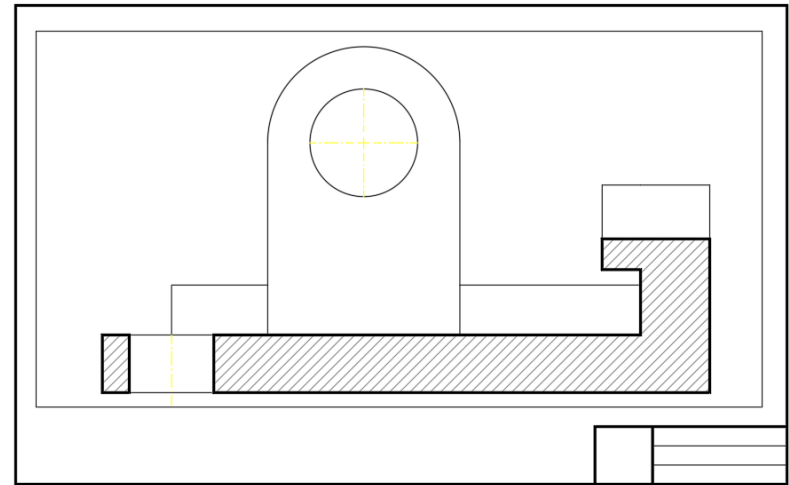

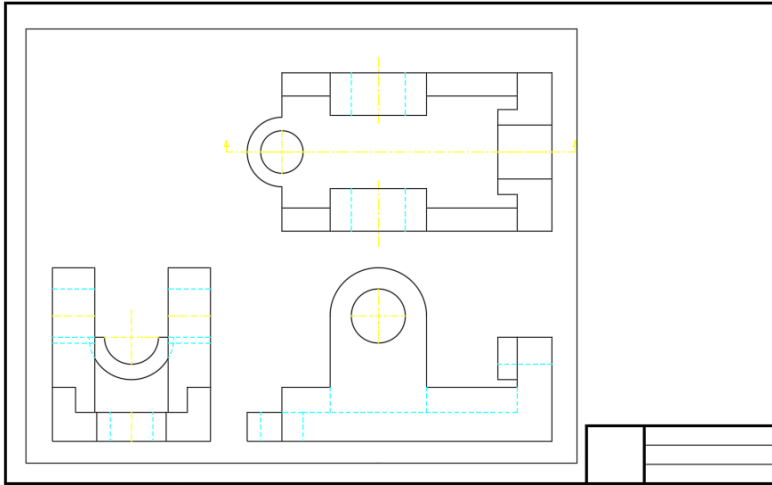

Session 01

AGENDA

- PAPER SPACE
- PAPER SIZE
- TITLE BLOCKS
- VIEWPORTS

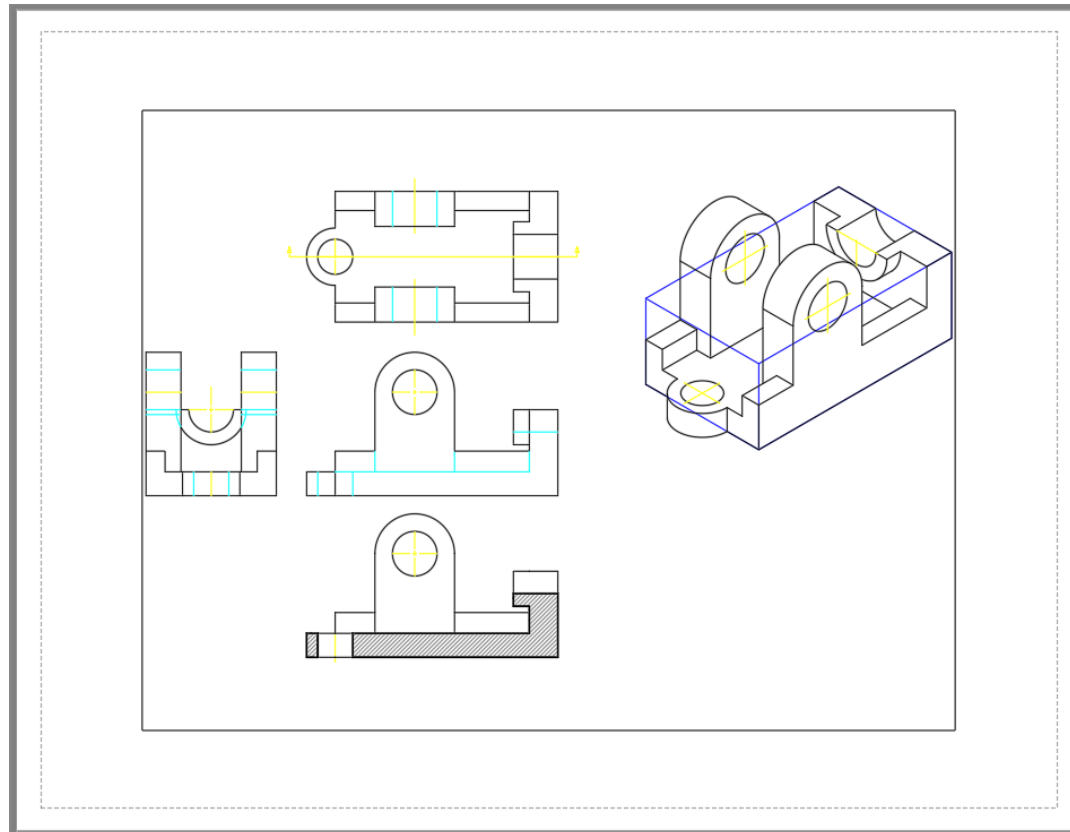

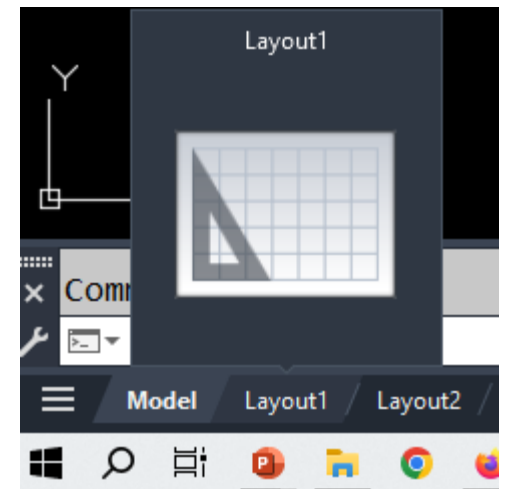

Exercise 1.dwg

- Open the final project . Dwg file from AutoCAD level 1
- Paper size 17x11 with title block
- Create a 3 page drawing package as seen below

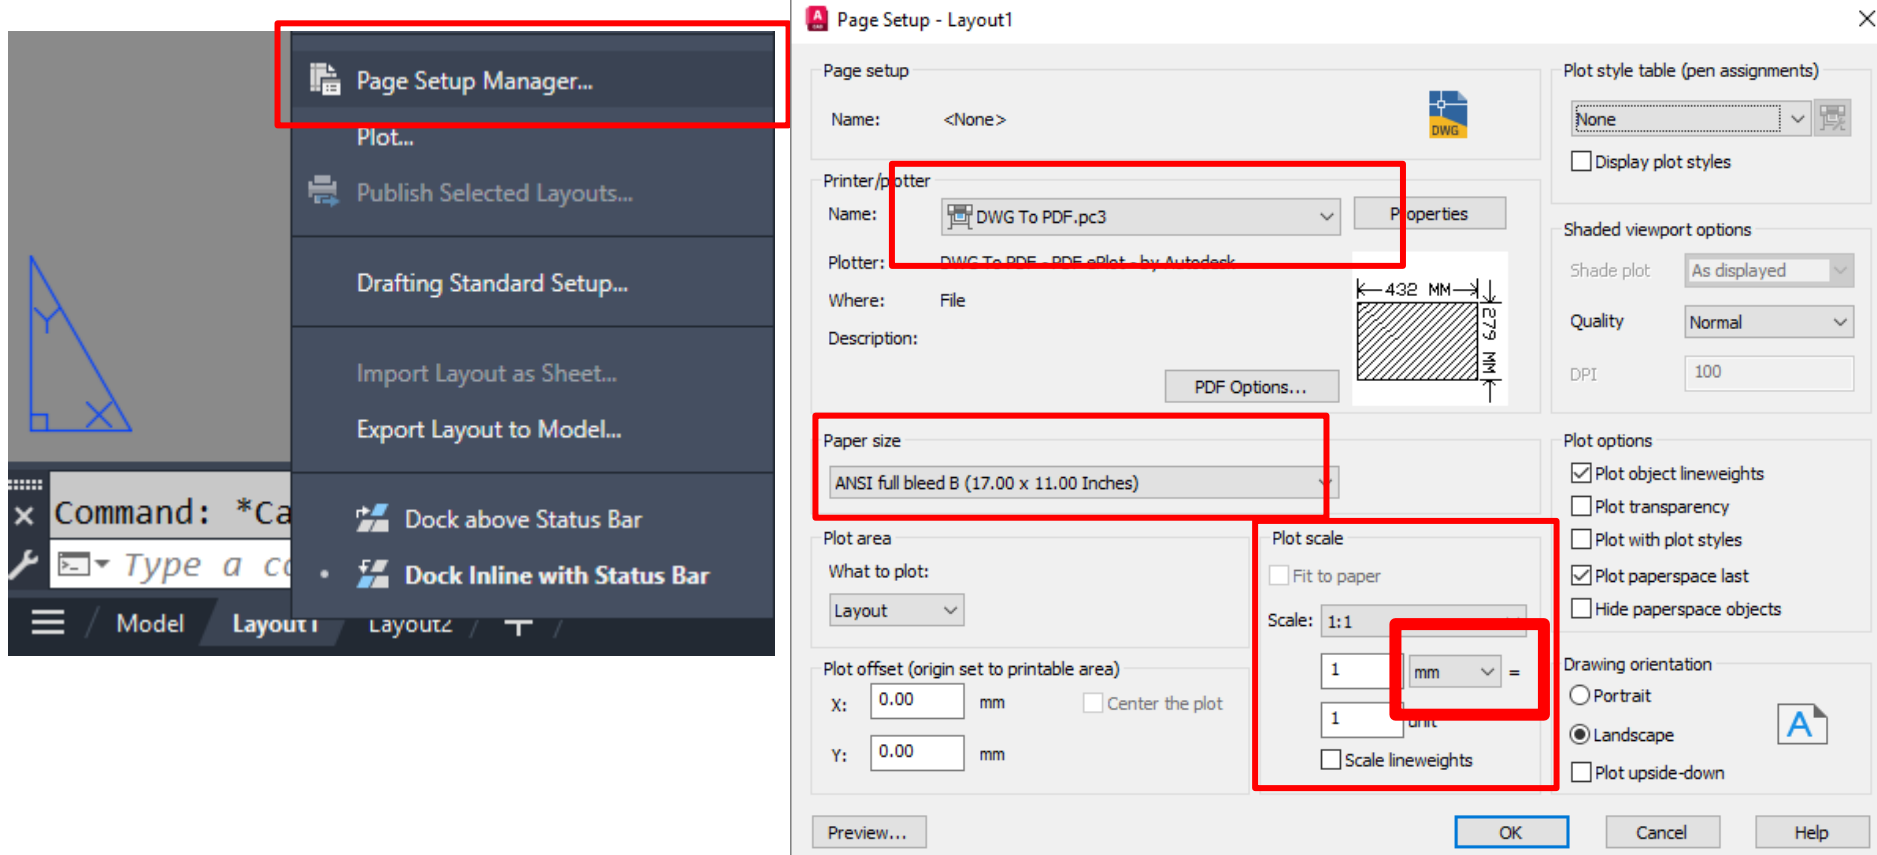

PAPER SPACE

- Paperspace is where you go to setup the page for printing.
- Click onto the Layout tabs to enter paperspace
- A default page will emerge with a single viewport
- The viewport shows what you drew in modelspace
- I would recommend deleting the viewport before setting up the paper size

PAPER SIZE

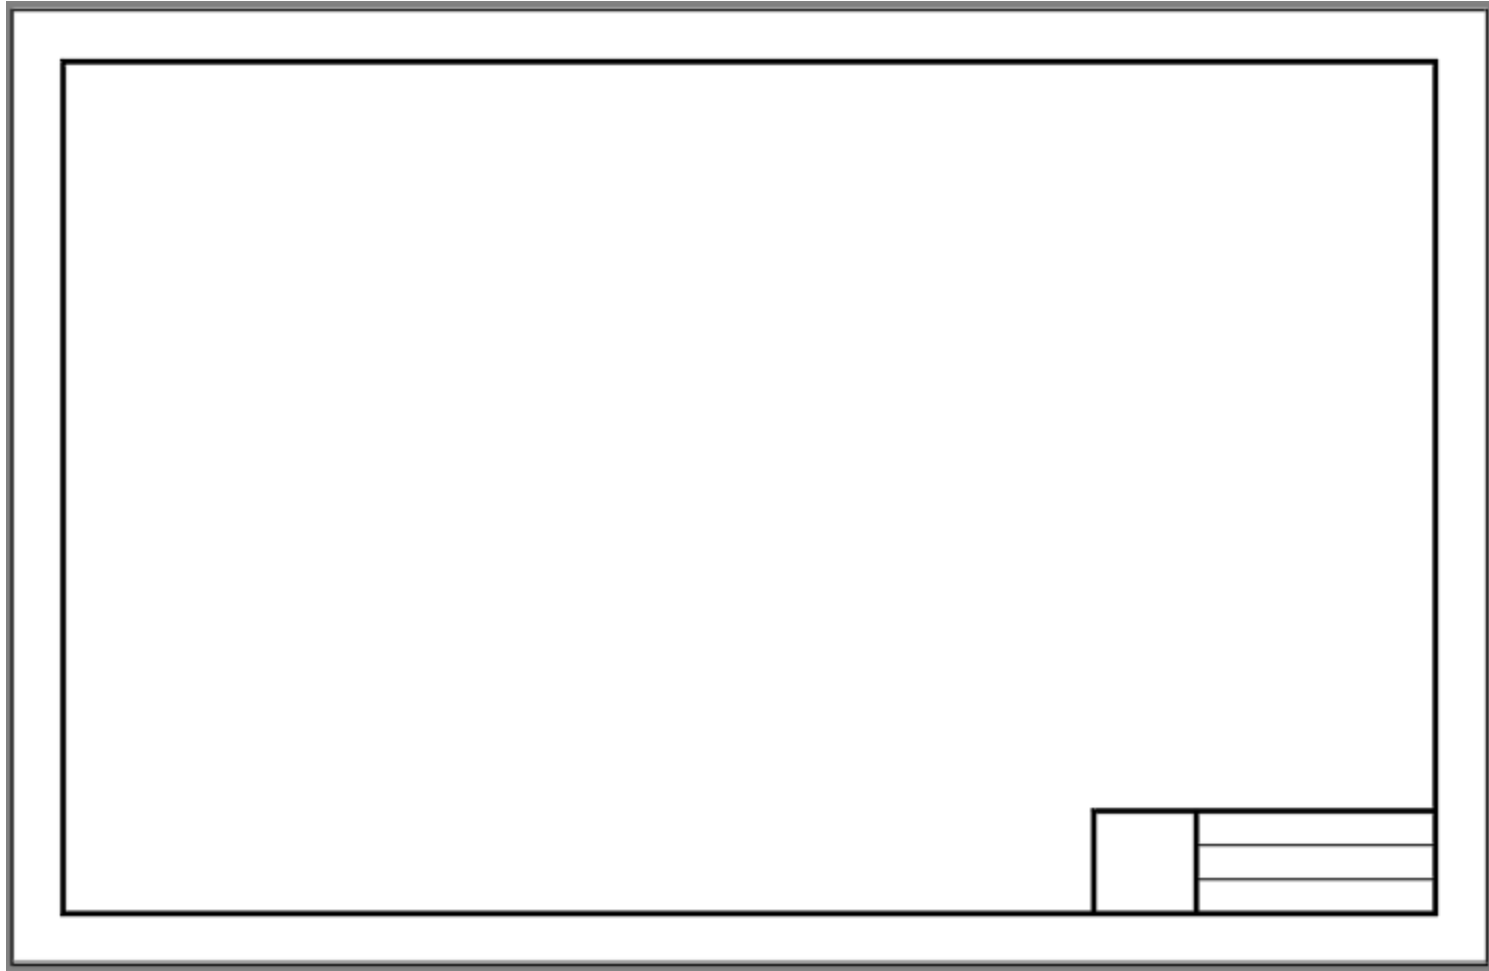

- By default, a new Layout will be sized as a letter size page (8.5x11)
- Enter the page setup manager to revise the paper size

- The Units selected is very important
- The plot scale should always be 1:1

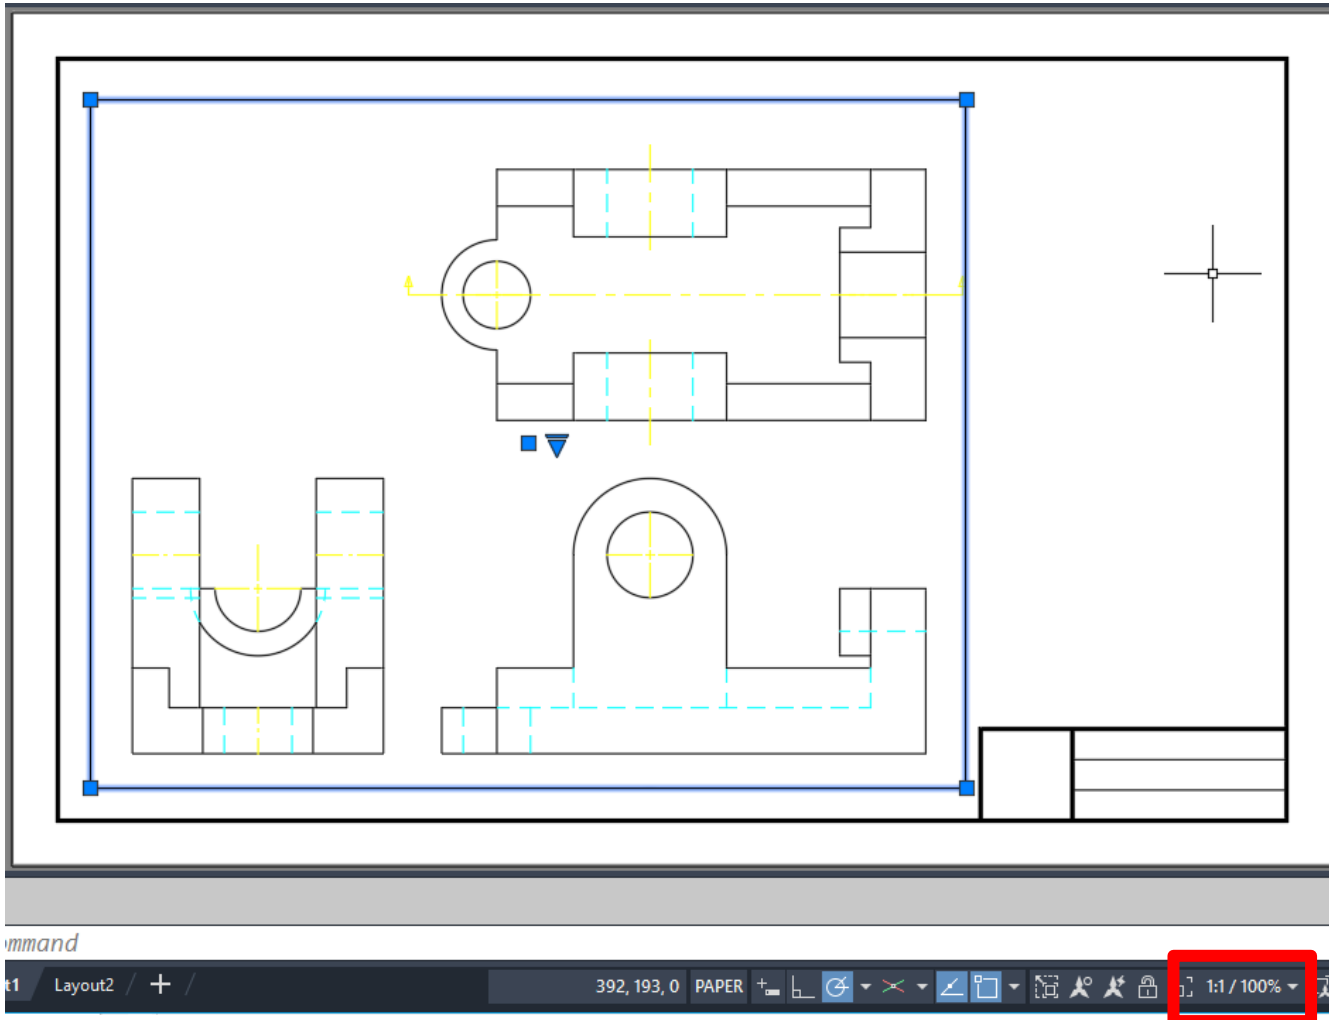

TITLE BLOCKS

- Title blocks can be created from scratch or inserted as a block

VIEWPORTS

- Layout viewports are **objects that display views of model space**. You create, scale, and place them in paper space on a layout. On each layout, you can create one or more layout viewports.

Exercise 2.dwg

- Open the Floorplan level 1.dwg
- Paper size ARCH D 36X24 with title block
- Create a 3 page drawing package as seen below
